

Chequemate

METROPOLITAN
SWABOU

Chequemate is a recurring premium endowment product that empowers the client to invest in his/her future. The product provides a lump sum benefit on maturity, and an option to effect loans at regular half-yearly intervals, after 1 year. Chequemate makes provision for multiple lives to be insured. This ensures that the investment stays in force until the death of the last life insured.

Investment term

The only term that is allowed is a 10 year term

Policy Interest Free Loans

The available interest free loans will be based on a minimum of 5 premiums after the policy has been in force for 12 months and 12 monthly premiums are paid.

Although not compulsory, repayment is encouraged to ensure better growth of the investment fund and higher returns on the maturity date. Repayment of the loan can be made at any time.

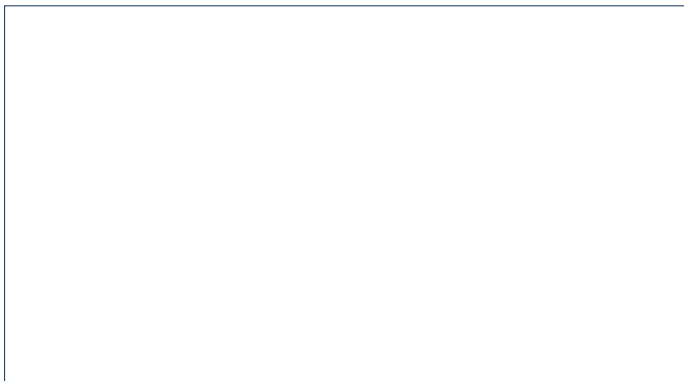

Automatic Inflation Management Benefit (AIM)

If you add AIM to your policy, your premium automatically increases by 0%, 5%, 10% or 15% each year to keep up with inflation. Without an annual increase, the money you put away now, may be insufficient in a few years' time.
